TEXTILE SOLUTIONS INC.

ANTI-SLIP: Safe non-adhesive latex will aid in the sturdy grip to all horizontal surfaces, with only a little pressure; no tape necessary.

WATERPROOF/ABSORBENT: Middle layer prevents liquids, top layer absorbs and traps debris.

SAVE TIME AND MONEY: Fast and easy to apply. Will stay in place without tape.

PRICE: The absolute best price, direct from the manufacturer. Save money and buy direct.

DURABLE: Protect from foot traffic, impacts, dust, dirt, debris and spills. Simply clean up and re-use.

CUSTOM PRINTING AVAILABLE: Increase your brand awareness by printing your business logo.

SMALL MINIMUM REQUIREMENTS: Order as little as 30 rolls per order/60 rolls custom printed.

ROLL DIMENSIONS: 36" x 100' and 300ft² of protection.

FOR BEST RESULTS:

- Test area prior to installation
- Overlap 3" where needed
- For all recently finished floors, ensure floors are dried to manufacturers specifications
- Leave down for no more than 100 days, checking periodically as conditions may change
- Clean and wipe surface prior to rolling out Vapor
- Safe for all surfaces: Test on extra porous surfaces and natural stone

CCP-Vapor is intended for temporary use only, not to exceed 100 days. Test locally prior to use. Polysols Inc. is not responsible for adhesion issues. We recommend you consult with your flooring/finish manufacturer if utilizing product prior to complete curing of the surface or if you have any questions. In no event will Polysols Inc. aggregate liability exceed the amount paid for this product.
